Flipkart Assured items shipping charges are calculated based on the number of units, distance and delivery date. For Plus customers, shipping charges are free. For non-Plus customers, if the total value of Assured items is more than Rs.500, shipping charges are free. If the total value of Assured items is less than Rs.500, shipping charges = Rs.40 per unit. For faster delivery, shipping charges will be applicable. Tentative Release: "What is the tentative delivery time?" Sellers generally procure and ship the items within the time specified on the product page. Business days exclude public holidays and Sundays. Estimated delivery time depends on the following factors:

- The Seller offering the product
- Product's availability with the Seller
- The destination to which you want the order shipped to and the Seller's location

Why does the delivery date not correspond to the delivery timeline of X-Y business days?

It is possible that the Seller or our courier partners observe a holiday between the day you placed your order and the date of delivery, which is based on the timelines shown on the product page. In this case, we add a day to the estimated date. Some courier partners and Sellers do not work on Sundays and this is factored in to the delivery dates.

Why does the estimated delivery time vary for each seller?

You have probably noticed varying estimated delivery times for Sellers of the product you are interested in. Delivery times are influenced by product availability, geographic location of the Seller, your shipping destination and the courier partner's time-to-deliver to your location.

Please enter your default pin code on the product page (you don't have to enter it every single time) to know more accurate delivery times on the product page itself.

Seller does not/cannot ship to my area. Why?

Enter your pincode on the product page (you don't have to enter it every single time) to know whether the product can be delivered to your location.

If you haven't provided your pincode until the checkout stage, the pincode in your last used shipping address will be used to check for serviceability. Whether your location can be serviced or not depends on:

- Whether the Seller actually ships to your location
- Legal restrictions, if any, in shipping particular products to your location
- The availability of reliable courier partners in your location

At times Sellers prefer not to ship to certain locations. This is entirely at their discretion.
